

Education and training for NHS staff in community health services, supporting the response to COVID-19

9 July 2020, Version 1

Purpose

As part of the NHS response to COVID-19, we want to support healthcare staff across community health service settings by bringing together free, accessible education and training resources in a [single place](#).

These resources will ensure staff feel comfortable and confident in their roles during the pandemic and provide guidance in tandem with further support, including face-to-face training. Topics include PPE, infection control and other role-specific guidance.

Open and accessible training resources

Training resources include:

- Health Education England [e-Learning for Healthcare](#)
- Health Education England [Learning Hub](#)
- Health Education England [External resources directory](#)
- Skills for Care [Essential training](#)
- Public Health England [Coronavirus \(COVID-19\): adult social care guidance](#)
