

NCL & UCLP Training Events

Proactive Management of LTCs in Post-Covid Primary Care

UCL Partners, in partnership with NCL CCG and NCL Training Hubs are delighted to offer an additional programme of training events to support the proactive management of LTCs in post-covid Primary Care.

Target audience: GPs, Practice nurses, HCAs, clinical pharmacists, PAs, Paramedics & other AHPs (these webinars are designed for Primary Care Clinicians of all professions and will introduce them in to how to benefit from the frameworks)

Learning outcomes: Clinicians will receive information, resources and an understanding of how to best approach proactive management of LTCs post Covid-19 recovery through a multidisciplinary approach.

Resources exist for Asthma, COPD, T2 Diabetes & Hypertension. AF & lipid management are in development. The resources include risk stratification approaches, digital tools, searches, self-management resources and pathways.

Wed, 18TH Nov 1pm-2pm
